PROFILE

Final-year Cybersecurity student at the American University in Cairo, graduating Spring 2027, with experience across security operations, vulnerability management, GRC and data privacy in telecom, financial services and government. Combines technical security work with regulatory and compliance exposure.

EDUCATION

American University in Cairo (AUC) Sep 2022 – Spring 2027 (expected)

B.Sc. in Cybersecurity, Minor in Game Design

EXPERIENCE

Etisalat Egypt, Information Security Specialist Sep 2026 – Dec 2026

- Contribute to a team effort that cut incident response time by 35% across 500+ weekly alerts, applying threat intelligence and automation to SIEM and EDR telemetry.
- Run vulnerability scans across 150+ critical assets and track fixes with security leadership, supporting 90% team remediation within a 30-day SLA.
- Support bi-weekly compliance reviews and control mapping against corporate security policy and National Telecom Regulatory Authority (NTRA) requirements.
- Built an attack surface monitoring solution covering 50+ external subdomains and IP ranges, surfacing 25+ open-port and outdated-service findings for remediation.

American University in Cairo, Data Privacy Assistant Oct 2025 – Dec 2025

- Processed and monitored 5,000+ student data records in OneTrust at 99%+ compliance accuracy.
- Supported the rollout of new privacy policies across 6 administrative departments.

Personal Data Protection Center (PDPC), MCIT, GRC Intern Nov 2024 – Jun 2025

- Co-developed 4 technical regulatory guidelines aligned with global data-protection standards.

eFinance, Information Security Intern Aug 2024

- Reviewed compliance across 10+ financial data processing workflows for the data governance and privacy team, and shadowed the SOC on penetration testing and monitoring.

PROJECTS

- **KRACK Attack and Fileless Malware Simulation:** Demonstrated the WPA2 KRACK attack and built a fileless malware simulation with in-memory execution, persistence and a custom command-and-control server.
- **EasyEnroll Course Planner:** Full-stack web app automating course clash detection, prerequisite checks and scheduling, with Google Calendar integration and an AI chatbot.

SKILLS AND CERTIFICATIONS

- **Security:** Vulnerability management, incident response, threat intelligence, attack surface management, SIEM, EDR, Wireshark, Nmap, Burp Suite
- **GRC and privacy:** ISO/IEC 27001, NIST CSF, MITRE ATT&CK, GDPR, Egypt Personal Data Protection Law (No. 151 of 2020), control mapping, OneTrust
- **Programming:** Python, C++, JavaScript, HTML/CSS, Verilog
- **Certifications:** Certified Information Privacy Technologist (CIPT), in progress; Cybersecurity Fundamentals, IBM SkillsBuild

LEADERSHIP AND ACTIVITIES

- Head of HEYA Does, leading a student team; Layout Designer, AUC Caravan newsletter
- Devcom Scholarship x Gaming Academy (2024); Trainee, Vodafone CodeLikeAGirl
